

421AT Distribution Box Specifications

Overview

CY8C4014FNI-421AT is a PSoC™ 4000 MCU in 16-pin SOIC with 16 KB flash, 2 KB SRAM, 13 GPIOs for touch. Find datasheet, parameters and ordering information. TimeWeaver combines static analysis with non-intrusive real-time tracing to provide worst-case execution time (WCET) estimates. The hybrid solution is compliant with CAST-32A and EASA AMC 20-193 and is particularly useful when working with modern high-performance processors that are not statically. Exact specifications should be obtained from the product data sheet. See what engineers are asking, ask your own questions, or help out a member of the DigiKey engineering community Order today, ships today. This product is unavailable in your selected currency. * All Digi-Reel orders will add a \$7. 56) from Infineon Technologies. Finding a reliable source for PN CY8C4014FNI-421AT is crucial, luckily you've come to the right place, you'll get a authentic and dependable source of products at RX ELECTRONICS. The CY8C4014FNI-421AT from Cypress Semiconductor Corp is a high-performance PSoC 4 BLE microcontroller designed for a. Infineon Technologies 4000 Series Programmable System-on-Chip (PSOC™) are small members of the PSOC 4 platform architecture.
