

# 8-way switch PoE

## Article Overview

An 8-way PoE switch provides network connectivity and power to up to eight devices over a single Ethernet cable, supporting standards like PoE, PoE+, and PoE++ for home or business networks.

### Overview

An 8-port PoE switch allows you to connect and power devices such as IP cameras, VoIP phones, and wireless access points without needing separate power adapters. These switches can be managed or unmanaged, with managed switches offering advanced features like VLANs, QoS, and Layer 3 routing, while unmanaged switches are plug-and-play for simpler setups .

### PoE Standards

- IEEE 802.3af (PoE): Delivers up to 15.4W per port, suitable for most IP phones and small devices .
- IEEE 802.3at (PoE+): Provides up to 30W per port, ideal for higher-power devices like PTZ cameras or access points .
- PoE++ (802.3bt): Supports up to 60W-90W per port for demanding devices such as high-end cameras or network switches .

### Key Features

- Port Speed: Most 8-port switches support Gigabit Ethernet (10/100/1000 Mbps), with some models offering 2.5GbE for higher bandwidth ....
