

ASEAN Fireproof and Flame-Retardant Cable Tray Manufacturer

Article Overview

Leading ASEAN manufacturers of flame-retardant cable trays include Ferrotech (Singapore), NewReach, and Prysmian Group, offering fire-rated, durable, and standards-compliant solutions.

Key Manufacturers in ASEAN

Ferrotech (Singapore) Ferrotech specializes in FRP (fiberglass-reinforced plastic) cable trays with premium fire-retardant resins, providing high strength, corrosion resistance, and fire safety. Their trays are suitable for harsh environments such as chemical plants, refineries, and marine applications. Options include Isophthalic Polyester (IFR) for Class 1 fire rating according to ASTM E84, and Vinyl Ester resin for enhanced fire retardancy. The trays are non-conductive, UV-resistant, and provide good electrical insulation, making them ideal for critical infrastructure projects .

NewReach NewReach manufactures fire-rated cable trays designed to withstand high temperatures and prevent flame propagation. Their products include powder-coated aluminum, galvanized steel, and fiberglass trays with intumescent coatings, ensuring compliance with ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013:2005 standards. These trays maintain circuit integrity for emergency systems such as fire alarms and emergency lighting, offering up to 2-hour fire ratings at 1050°C. They are suitable for both indoor and outdoor installations and support heavy cable loads .

Prysmian Group (Regional Operations) Prysmian operates extensively across ASEAN with manufacturing plants in Malaysia, Indonesia, the Philippines, and Thailand, and a regional distribution center in Singapore. Their MAX FOH™ fire performance cables...
