

Adapter types used for fiber optic cables

Article Overview

Fiber optic adapters, also known as fiber couplers, come in various types to connect and align optical fiber connectors, ensuring minimal signal loss and stable communication.

Common Types of Fiber Optic Adapters

-

SC Adapter:

- Description: A rectangular adapter used for interconnecting SC fiber optic connectors.
- Application: Commonly used in data centers and telecom networks for stable signal transmission.

-

LC Adapter:

- Description: A miniaturized adapter designed for LC fiber optic connectors, allowing for high-density connections.
- Application: Ideal for environments where space is limited, such as patch panels and high-density wiring setups.

-

FC Adapter:

- Description: A connector that uses a threaded connection for reliable optical signa...
