

Afghanistan Triple-Network Fiber Distribution Box Manufacturer

Article Overview

Smart Group and Rayan Manufacturing Company are key Afghan companies involved in fiber optic and electrical distribution solutions, while ZMS provides high-quality fiber optic distribution boxes suitable for triple-network applications.

Local Manufacturers and Suppliers

1. Smart Group (SG) Smart Group is a leading Afghan ICT company with offices in Kabul, Herat, Mazaar, Kunduz, Baghlan, Kandahar, and Jalalabad. They provide nationwide fiber optic network solutions, including fiber optic internet access and distribution infrastructure. Their services include engineering, integration, and commissioning of telecommunications solutions, using both terrestrial and air fiber technologies. While they primarily focus on network deployment and VSAT services, they are capable of supplying and managing fiber optic distribution equipment for triple-network setups . 2. Rayan Manufacturing Company Rayan Manufacturing, established in 2005, specializes in producing electrical panels, cable trays, cable ladders, and meter boxes. They have modern production facilities with CNC machinery and adhere to UL and IEC international standards. While their primary focus is electrical distribution, their expertise in panel and box manufacturing can be leveraged for custom fiber distribution boxes, potentially suitable for triple-network fiber applications . 3. ZMS (Global Supplier) ZMS is a global manufacturer of fiber optic distribution boxes, offering high-quality, customizable solutions for FTTH and backbone networks. Their boxes support fusion splicing, splitting, and cable management, and are designed to withstand environmental pressures and ensure r...
