

All-Dielectric Power Optical Cable Manufacturer

Article Overview

Leading manufacturers of All-Dielectric Self-Supporting (ADSS) optical cables include ZTO Fiber Cable, ZMS Cable, TW-SCIE, and Zion Communication, offering high-quality, non-metallic fiber optic solutions for aerial and power line installations.

Overview of ADSS Cables

ADSS cables are all-dielectric, self-supporting fiber optic cables designed to be installed along power lines without conductive metal elements. They are lightweight, non-metallic, and capable of spanning long distances while withstanding environmental stresses such as wind, ice, and temperature variations. These cables are widely used in power communication systems, telecom networks, and high-voltage aerial installations due to their high tensile strength, insulation properties, and ability to operate without power outages during installation .

Key Manufacturers

1. ZTO Fiber Cable

- Offers ADSS cables suitable for long-span aerial and power line projects worldwide.
- Factory production capacity: 10,000,000 km of fiber optic cables per year.
- Typical cable rolls: 3-4 km; container capacity: 120 km (20-foot) or 260 km (40-foot).
- Service life: 30 years; production cycle: 2-3 weeks .
