

Asian Color Steel Cable Tray Price Inquiry

Article Overview

Asian color steel cable trays typically cost between \$10 and \$30 per meter, depending on material, coating, size, and supplier.

Price Range and Factors

The cost of steel cable trays varies widely based on material type, surface finish, and design. Standard steel trays, including galvanized options, generally range from \$10 to \$30 per meter, while aluminum trays are more expensive at \$20 to \$50 per meter. Coatings such as hot-dip galvanization (HDG) or powder coating increase durability and price, whereas pre-galvanized trays are cheaper but less corrosion-resistant. Ladder-type trays, which support heavier cables, are usually priced higher than perforated or wire mesh trays. Regional pricing examples in Asia show that suppliers in India offer steel cable trays starting at ₹90-95 per meter, which is roughly \$1-\$1.20 per meter, though this may vary with bulk orders and shipping. In the Philippines, cable trays range from ₱1,310 to ₱5,307 per unit, depending on size and material.

Cost Considerations

- **Material:** Steel is common and cost-effective; stainless steel resists corrosion but is pricier. Aluminum is lightweight but more expensive.
- **Coating:** HDG and powder coatings improve longevity but add to upfront costs.
- **Tray Type:** Ladder trays are stronger and cost more; perforated trays are cheaper.
- **Order Quantity:** Bulk purchases often reduce per-meter cost.
- **Installation and Shipping:** Labor, equipment, and transport can significantly affect total project cost
