

Cable tray expert cable tray elbow manufacturing price

Article Overview

Cable tray elbows are available from \$0.80 to \$1.30 per unit in bulk, with options for galvanized steel, stainless steel, and customizable designs.

Overview of Cable Tray Elbows

Cable tray elbows are essential fittings used to change the direction of cable trays in electrical and communication installations. They are part of a broader cable management system that includes ladders, trays, and various fittings like tees, crosses, risers, and reducers. These elbows ensure smooth routing of cables around corners or obstacles while maintaining structural integrity and safety .

Materials and Types

Cable tray elbows are commonly manufactured from:

- Galvanized steel – corrosion-resistant and suitable for industrial environments .
- Stainless steel – ideal for high-durability and outdoor applications .
- Aluminum alloy – lightweight and corrosion-resistant.
- Fiberglass-reinforced plastic (FRP) – fireproof and suitable for specialized installations . Elbows can be horizontal or vertical, and are designed to fit specific tray widths and types, including ladder, ventilated, and solid-bottom trays .
