

Calibration of Optical Communication Tester in Sri Lanka

Article Overview

Sri Lanka offers multiple ISO/IEC 17025:2017 accredited laboratories and private calibration service providers capable of calibrating optical communication test instruments with traceable, internationally recognized standards.

Accredited Laboratories and Service Providers

1. Sri Lanka Standards Institution (SLSI) SLSI operates ISO 17025 accredited laboratories providing a wide range of calibration services, including electrical and dimensional instruments. While their primary focus is on force, pressure, mass, and length calibration, they can accommodate specialized requests for other instruments, including optical communication test equipment, upon inquiry. All calibration certificates are traceable to national and international standards, ensuring compliance and reliability (SLSI) . 2. Industrial Measurement & Calibration (Pvt) Ltd (IMC) IMC offers comprehensive calibration services across Sri Lanka and the Asia Pacific region. Their team of qualified calibration officers can perform on-site or in-lab calibrations for a variety of instruments, including electrical and optical measurement devices. IMC emphasizes ISO-compliant procedures and quality assurance, making them suitable for optical communication test instruments (IMC) . 3. VERICASS Sri Lanka VERICASS provides ISO/IEC 17025:2017 accredited calibration services for laboratory and industrial instruments. They specialize in precision calibration, maintenance, and installation of test equipment. Their services are internationally traceable and suitable for optical communication testing devices, ensuring measurement confidence and compliance with global standards (VERICASS) . 4. Lan...
