

Changning Cable Tray Factory

Article Overview

Changning Cable Tray Factory is a Chinese manufacturer specializing in high-quality cable tray systems, offering custom designs, automated production, and comprehensive technical support.

Factory Capabilities

Changning Cable Tray Factory, like other leading Chinese cable tray manufacturers such as ApexTray, operates automatic production lines for high-volume manufacturing, including perforation, bending, welding, stamping, and powder coating areas to ensure durable and precise cable management solutions . The factory can produce stainless steel, aluminum, and FRP cable trays, suitable for industrial, commercial, and renewable energy projects . Customization services allow tailored designs to meet specific project requirements, including CAD drawings and project-specific layouts .

Products and Materials

The factory typically offers a range of cable tray types:

- Ladder trays for heavy-duty power cables
 - Basket trays for flexible routing of fiber optic and control cables
 - Solid or ventilated trays for heat-sensitive or aesthetic applications
 - FRP trays for harsh industrial environments requiring corrosion resistance
- Materials include AISI 316L stainless steel, pre-galvanized or hot-dip galvanized steel, and aluminum alloys, providing excellent corrosion resistance, mechanical strength, and...
