

Comoro Fireproof Large-Span Cable Tray

Overview

Different from normal cable trays, Large span cable tray has large supporting span with high loading capacities. Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply to local and international standards of fabrications and finishes. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/ BS EN. Cable trays, or carrier trays, are mechanical support systems for cables. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. ECTRAY offer a wide range of perforated cable trays which are fabricated using quality raw material such as Zinc Aluminum Magnesium (ZAM).
