Article Overview

Desktop computers with optical drives are available in tower, mini, and all-in-one formats, suitable for reading and writing CDs, DVDs, and sometimes Blu-ray discs.

These are space-saving and convenient for users who need occasional disc access without a separate tower (Consumer Echo) . **Refurbished Desktops:** Companies like Blackmore IT offer refurbished desktops with optical drives, providing high-spec machines at lower prices. These are suitable for users looking for reliable performance while saving costs (Blackmore IT) .
