

Dimensions of Waterproof Distribution Box Signage

Article Overview

Waterproof distribution boxes typically range from compact 4-way enclosures to larger 36-way units, with dimensions varying by series and manufacturer, often designed to meet IP65-IP66 standards for outdoor use.

Typical Dimensions and Configurations

- **Compact Boxes (AT Series / 4-8 ways):** Designed for tight spaces, these boxes often measure approximately 200-300 mm in height, 150-250 mm in width, and 80-120 mm in depth, suitable for small residential or commercial installations .
- **Medium Boxes (HT Series / 8-16 ways):** Provide extra internal room for DIN rail mounting and multiple terminals. Dimensions typically range 300-450 mm height, 250-350 mm width, and 120-180 mm depth, allowing cleaner cable routing and integration with fuses, SPDs, or breakers .
- **Large or Modular Boxes (SHPN / 36-way):** Used for industrial, photovoltaic, or high-capacity applications. These enclosures can exceed 600 mm in height, 400 mm in width, and 200 mm in depth, with customizable internal layouts, wall thickness, and knockout positions for cable entry .

Material and Protection

- **Housing Materials:** ABS for cost-effective indoor use; UV-stabilized polycarbonate (PC) for outdoor, solar, or marine exposure .
- **Ingress Protection:** IP65 ensures protection against dust and low-pressure water je...
