

Dimensions of a power distribution box in Congo

Article Overview

Power distribution boxes in Congo typically range from 1600–2200 mm in height, 400–1000 mm in width, and 400–800 mm in depth, depending on type and application.

Standard Dimensions

For low-voltage power distribution cabinets, such as the XL-21 series commonly used in industrial and commercial settings in Congo, the dimensions are as follows:

- Height: 1600–2200 mm
- Width: 400–1000 mm
- Depth: 400–800 mm
- Material: High-quality electrolytic or galvanized steel, 2.0 mm thick
- Protection Level: IP30 standard, with options for IP41, IP44, or IP54
- Installation: Independent or combined units, with adjustable internal mounting brackets for flexible wiring and component placement

Congo-Specific Industrial Cabinets

In practical factory applications in Congo, customized distribution cabinets are designed to handle multi-source power systems, including mains, solar PV, and diesel generators. These cabinets are built to withstand high temperatures, humidity, and dust, with reinforced anti-corrosion steel and optimized internal layouts for intelligence...
