

Distribution box cup comb opening size

Article Overview

Distribution Box Cup Combs are available in various sizes depending on the box type, with dimensions specified for length, width, and height.

General Dimensions

Distribution box cup combs are designed to fit specific distribution boxes, and their dimensions vary according to the model and number of ways. Common types include TOP-TS, TOP-TF, TOP-LS, TOP-PS, TOP-PF, and TOP-S, which range from 1-way to 36-ways. Each type has its own length, width, and height specifications to ensure proper mounting and spacing within the box .

Example Specifications

- TOP-TS and TOP-TF: Typically smaller combs for 1-12 ways, suitable for compact distribution boxes.
- TOP-LS and TOP-PS: Medium-sized combs for 12-24 ways, providing more space for wiring and connections.
- TOP-PF and TOP-S: Larger combs for 24-36 ways, designed for high-density installations. Dimensions are usually provided in millimeters (mm) and include allowances for mounting and cable routing. The combs are designed to align with the box's internal layout, ensuring that each terminal or connection point is accessible and properly spaced .
