

Dominican ABB Standard Distribution Box

Article Overview

ABB standard distribution boxes in the Dominican Republic offer modular, safe, and flexible solutions for residential, commercial, and infrastructure electrical installations.

Overview

ABB distribution boxes, including the Mini Center Compact and ComfortLine series, are designed to provide safe, reliable, and flexible power distribution. They are suitable for residential, commercial, and industrial applications, allowing customization according to specific electrical requirements . These boxes support a wide range of incoming devices such as Switch Disconnectors, MCCBs, MCBs, RCCBs, RCDs, or direct cable connections, ensuring compatibility with various electrical setups .

Key Features

- **Modular Design:** ABB distribution boxes allow easy installation and replacement of components without obstructing other devices. The pan assembly can be removed or mounted easily, and gland plates can be adjusted for top or bottom extensions .
- **Safety:** Busbars and terminals are shrouded to prevent accidental contact, and front cover screws are located behind the door for added personal protection .
- **Flexible Wiring Space:** Generous internal space and self-aligning features for outgoing MCBs simplify wiring and installation .
- **Customizable Configurations:** ABB offers over 200 combinations of distribution boards, including tailor-made solutions beyond standard models
