

Fiber Optic Communication Belize

Article Overview

Belize's fiber optic network is expanding, with high-speed broadband available in urban areas and ongoing projects to extend connectivity nationwide.

Overview of Fiber Optic Infrastructure

Belize's fiber optic communication is primarily managed by Belize Telemedia Limited (BTL/Digi), which has partnered with Huawei to deploy advanced fiber networks, including GPON (Gigabit Passive Optical Network) technology capable of delivering up to 2 Gbps download and 1 Gbps upload speeds, mainly for business clients and call centers . Fiber optic services are increasingly available in urban centers, while rural areas still rely on wireless or satellite solutions .

Submarine and Strategic Links

Belize is a landing point for the Americas Region Caribbean Ring System (ARCOS-1) submarine cable, connecting the country to South and Central America, the Caribbean, and the United States . Additionally, BTL has implemented the Strategic Evolution Underwater Link (SEUL) submarine cable between San Pedro, Ambergris Caye, and mainland Belize, enhancing connectivity for both commercial and residential users . These links are critical for international bandwidth and reliable internet access.
