

# Fiber Optic Sensor Company Exhibiting at the Exhibition

## Overview

G&H (LON:GHH), a world leader in high-performance original equipment manufacturing, will exhibit its latest fiber optics portfolio during the 2025 Optical Fiber Communications Exhibition (OFC) held from April 1st to April 3rd, 2025 at the Moscone Center, San Francisco . G&H (LON:GHH), a world leader in high-performance original equipment manufacturing, will exhibit its latest fiber optics portfolio during the 2025 Optical Fiber Communications Exhibition (OFC) held from April 1st to April 3rd, 2025 at the Moscone Center, San Francisco . The EU-funded 2D Pilot Line (2D-PL) project is driving the next phase of Europe's semiconductor innovation by advancing the integration of 2D materials into photonics and electronics. The 2D-PL aims to bring 2D material fabrication closer to industrial readiness by developing and validating. With just over two months until ECOC starts in Málaga, we are excited for this year's Market Focus programme, which remains a highlight of the exhibition, year after year. The Market Focus timetable is now available here: <https://www.com/visit/market-focus/market-foc>. We're. Fiber Optic Access detailed information about sector fairs, congresses and business events. In which countries are Fiber Optic exhibitions and. Reliable photonic integrated circuits (PICs) are critical technology for meeting the exponentially growing demand for more functionality, reliability, integration, scalability, and size and power reduction. The. Welcome to the 30th edition of the International Conference on Optical Fiber Sensors (OFS) where concepts, innovations, developments and applications on fiber optics-based sensing are delivered together with related photonic principles and technologies. Explore breakthroughs in fiber-optic sensing.

## Article Content

Exhibit | ECOC

Exhibit Exhibiting at ECOC Exhibition The ECOC Exhibition has been running for over 30 years and has grown to become the largest

Sensor Technology Trade Shows

Sensor Technology trade shows, find and compare 196 expos, trade fairs and exhibitions to go - Reviews, Ratings, Timings, Entry

About ECOC | ECOC

About ECOC All About The ECOC Exhibition The ECOC Exhibition is the largest optical communications exhibition in Europe, held

18 Fiber Optic Sensor Manufacturers in 2026

18 Fiber Optic Sensor Manufacturers in 2026 This section provides an overview for fiber optic sensors as well as their applications

Exhibition – 8th Workshop on Specialty Optical Fibers and Their ...

Redondo Optics Inc. (ROI) is a fiber optic sensor company that provides multi-parameter distributed fiber optic sensors for structural

Luna to Showcase Sensing at ADIPEC 2024 | Luna Inc.

This year marks the first time that Luna will be exhibiting as a combined optical sensing company, bringing together its

2024 SEG Workshop on Fiber Optics Sensing for Energy Applications

Distributed fiber optic sensing is a rapidly developing technology with significant disruptive potential in multiple applications in many,

Scaling the Smart Sensing Revolution: G& H's Fiber Optic Innovations

G& H (LON:GHH), a world leader in high-performance original equipment manufacturing, will exhibit its latest fiber optics portfolio

Home | OFC

What's New? What's Next? View the list of 2026 Invited Speakers. Insights and inspiration from an unforgettable event. Exhibit at

Exhibitor List

Founded in 2017, the company specializes in the development and large-scale manufacturing of optical transceiver modules, fiber

Optical Fiber Sensors 2026 (Raleigh NC)

The International Conference on Optical Fiber Sensors (OFS) is the leading international conference on concepts, innovations,

Exhibition and Theater Programs | OFC

The Exhibition - A Global Showcase for Innovation The exhibition features more than 700 industry-leading companies representing

ECOC Exhibition 2026

The ECOC Exhibition is Europe's largest exhibition in the fibre optic communication technology industry and in 2019, will once again

Exhibitor details · SENSOR+TEST

Founded in 2005, FBGS is a Germany and Belgium based developer and manufacturer of tailored fiber optic sensing components

Luna Innovations | Fiber Optic Sensing and Measurement Systems

Recently members of the Luna team traveled to New York City to celebrate new company milestones in our quest to enable the
