

Fiber optic switch enclosure wiring price

Article Overview

Fiber optic switch enclosures typically range from \$50 to over \$1,000 depending on size, type, and pre-wired configuration.

Price Overview

- **Wall-Mount Enclosures:** Compact and suitable for small network rooms or IDF closets, prices generally range from \$50 to \$200 for basic models with 6–12 fiber ports, while pre-wired or higher-density versions can cost \$200–\$400 .
- **Rack-Mount Enclosures:** Designed for 19" or 21" racks, these enclosures vary from \$150 to \$800 depending on size (1U–4U), number of panels, and fiber capacity . High-density preloaded cassettes supporting 36–108 LC connections in 1U can cost \$300–\$1,000 .
- **Outdoor/Harsh Environment Enclosures:** Built to withstand weather and environmental stress, these enclosures are more expensive, typically \$300–\$1,200 depending on fiber count and material .

Factors Affecting Price

- **Fiber Type:** Singlemode (OS1/OS2) or multimode (OM1–OM4) fibers influence cost, with singlemode often slightly higher due to performance requirements .
- **Connector Type:** LC, SC, ST, MTP, or APC connectors can affect pricing; pre-terminated panels with LC or MTP connectors are more expensive .
- **Pre-Wired vs Empty Enclosures:** Pre-wired enclosures with cassettes or patch cords installed are more costly than empty enclosures that require on-site termination .
- **Material and Build:** Steel enclosures are generally more durable and slightly more expensive than aluminum or plastic models
