

Good fiberglass cable trays in Slovenia

Article Overview

Fiberglass (FRP/GRP) cable trays in Slovenia are available from reputable suppliers like EFG Composites, Sintatank, Øglænd System, and local distributors such as Elba d.o.o., offering durable, corrosion-resistant, and versatile solutions for industrial and commercial applications.

Recommended Suppliers and Manufacturers

EFG Composites supplies pultruded fiberglass cable trays with ladder and perforated types, suitable for power plants, refineries, and laboratories. Their trays are made from polyester fire-retardant (FR-P) or vinylester (FR-VE) resins, providing excellent corrosion resistance against acids, alkalis, and solvents. They offer a wide range of widths (50 mm to 1000 mm) and thicknesses (1.2 mm to 3.0 mm), along with fittings like bends, tees, and reducers for flexible installation. Sintatank offers FRP cable trays including trough, tray, and ladder types. These trays are lightweight, high-strength, and resistant to chemical corrosion, making them ideal for heavy-duty cables, high-power installations, and corrosive environments such as chemical plants or wastewater treatment facilities. Øglænd System provides fiberglass composite cable trays suitable for both offshore and onshore projects. Their trays come in various heights and widths, with slot patterns for easy cable management and a wide selection of brackets and fittings for stable installation. Elba d.o.o. is a leading Slovenian distributor of electrical installation products, including cable trays. They offer high-quality, customizable solutions with advanced manufacturing processes and expert support for installation and design.
