

H3c Single-Fiber Optic Module

Overview

The H3C compatible Module provides 16GBase-LR throughput up to 10km over single-mode fibre (SMF) using a wavelength of 1310nm via an LC duplex connector. This transceiver is compliant with SFF-8636 standards. Table 1 Transceiver modules and network cables available for H3C devices See Table 52. Moduletek Laboratory has tested samples of this product to help users better understand its performance specifications and actual on-site application behavior. The 100 Gigabit Ethernet signal is carried over a single wavelength using onboard PAM4. This H3C SFP-GE-SX-MM850-A optics is a high performance and cost-effective small form factor pluggable transceiver. Digital diagnostics functions are available via a 2-wire common management interface, as. “No featured offers available” means no offers currently meet all of these expectations. We don't know when or if this item will be back in stock. Although we can't match every price.
