

HBA light distribution module

Overview

The HBA is a high efficiency LED aisle lighter that is engineered for premium performance in medium and high ceiling applications ideally suited for aisle warehouses, manufacturing plants, sports facilities and garages. As HBA's dedicated lighting design partner, Light Directions infuses creative vision with technical mastery to enhance the emotional impact of every space. Working in tandem with HBA Interiors and Architecture teams, Light Directions delivers layered, atmosphere-defining lighting schemes, from. Support at Every Step We are committed to partnering with you and making sure you have what you need to succeed. HBA's high lumen package allows the benefits of fluorescent to be applied at high mounting heights that were traditionally exc usive to H. 0" die casting aluminum alloy housing. LED light fixture can get the same light intensity as 250-1500W metal halide for warehouse, parking lot. ce. It is available in a variety of distributions for lighting applications such as gyms, industrial, multi-purpose rooms in schools, churches, and retails, ng. For the power supply in the United States and Canada, in case the input voltage fluctuation $\geq 240V$ the High Voltage solution is highly.
