

High-density cabinets for distributors

Overview

High density storage cabinets are suitable for the organisation and sorting of large item quantities at production facilities, warehouses, stores and workshops. This product includes a frame, bins and labels with protective shields. These are built to enable easier, more ergonomic access for the workers that use them daily. This type of storage is far different from the traditional cabinets or shelves you're. Our portfolio of passive components comprises termination and distribution cabinets, joint closures, splitters and aerial cable accessories that cater to various types of telecom and defence networks. Cabinets or Panels are generally known for providing management of fibers in a structured and. Belden offers a complete line of open frame racks and cabinets that support all applications, from single-rack or cabinet applications (such as retail and telecom closets) to high-density, multi-rack/multi-cabinet patching and switching fields (in computer rooms, data centers and central offices). This NORDEN Fiber optic distribution.
