

High-density mesh cable trays desktop type in stock

Article Overview

Wire mesh cable trays, including desktop and under-desk types, are available for immediate purchase with features for ventilation, cable protection, and integrated power distribution.

Wire Mesh Cable Trays Overview

Wire mesh cable trays, also known as basket trays, are designed to support and route small-diameter cables such as data and communication lines. The open mesh design allows airflow to prevent heat buildup, while smooth edges protect cables from abrasion during installation. These trays can be cut, bent, or configured into curves, slopes, and tees to accommodate complex cable runs, and they can be mounted on walls, overhead, or under floors .

Desktop and Under-Desk Options

For desktop or under-desk setups, the Hexcal Under-Desk Cable Management Tray is a high-density solution crafted from cold-rolled steel. It provides a minimalist aesthetic while protecting hardware and ensuring thermal safety. Key features include:

- Dimensions: 31.1" L x 10.1" W x 4.8" H (790 x 256 x 123 mm), designed to avoid knee interference .
- Installation: Compatible with Hexcal Elevate Standing Desks or any solid wood, ba...
