

High-density telecom chassis intelligent type in stock

Article Overview

Several high-density, intelligent telecom chassis are available, including DEV 7113 RF over Fiber, PLANET CS-6303R Layer 3 chassis, and iAccess FRM220 multi-service platforms.

DEV 7113 RF over Fiber Chassis

The DEV 7113 is a 3 RU intelligent chassis supporting 20 slots for optical modules such as CWDM, DWDM, EDFA, and analog RF modules. It offers high module density with up to 40 RF over Fiber channels in a single chassis. The integrated controller allows management via the DEV Web Interface or SNMP, and it supports 1+1 or N+1 redundancy for high reliability. This chassis is ideal for flexible, high-density RF over Fiber deployments in telecom networks .

PLANET CS-6303R Layer 3 Chassis

The CS-6303R is a high-density core Layer 3 chassis switch designed for large networks, including enterprises, campuses, ISPs, and data centers. It features three module slots, redundant power supply, and supports Gigabit, 10-Gigabit, and 40-Gigabit Ethernet. The chassis provides up to 1.47 Tbps forwarding performance, wire-speed L2/L3 forwarding, and advanced routing for IPv4/IPv6. Its modular architecture allows flexible combinations of management and switch modules, making it suitable for core or aggregation layers in high-performance networks

Search HSN and SAC codes, tax rates, descriptions, and related information for Goods and Services Tax (GST) on this official platform.

Multi-Service Platform

The FRM220 series is a multi-service platform chassis, which provides a reliable solution of high density media converter modules

Fibre Patch Panels

These high density chassis fibre patch panels are designed to meet the challenges of data centers where high density and

HDX High-Density Servers | Thinkmate

HDX High-Density Servers Energy Efficient, High-Density, High-Performance Servers Thinkmate's high-density, multi-node HDX

2U High Density MPO Fiber System Chassis

This chassis is designed for MPO box, fits for SC/LC, MMF/SMF fiber system, etc. With unique tool-free installation design so that

Telecom Hardware

High density – Up to 1440 telephony processing channels per chassis; add further chassis for larger systems "Best in class" on

100GbE High Density 13-Slot 3U OpenVPX Chassis (WC31DH)

It is a higher density version of the WILD100 14-Slot 3U OpenVPX Chassis (WC31E0). It includes two HD Switch slots that feature

Order Thinklogical Chassis

Space Saving at the Desktop. The rack mountable T-4200 chassis is ideal for high density applications, where space may be limited.

China Telecom Chassis, Telecom Chassis Wholesale, Manufacturers,

China Telecom Chassis wholesale - Select 2026 high quality Telecom Chassis products in best price from certified Chinese

37 results from 6 suppliers for "Telecom racks & chassis"

Dive into our online wholesale telecom racks & chassis products catalog on globalsources ! Source over 37 telecom racks &

Communications Chassis

Communications equipment often demands a chassis that is robust yet agile. ZhiQiu's Communications Chassis provides that

FRM220-CH20: 20-Slot Fiber Chassis Dual Power Network

FRM220 chassis is best choice of high density in-band, web based or SNMP based, managed fiber converters with support for

Ultra-High Density (UHD) Chassis – PPC Broadband | Product Catalog

Ultra-High Density chassis (UHD), modular distribution panel, max capacity 144F in 1U size PPC's Ultra-High Density (UHD) Chassis
