

High-precision optical distribution network from Finnish manufacturer direct supply

Overview

FinnLight provides a comprehensive combination of technologies covering all classes of photonics materials as well as full-scale process lines for device fabrication and assembly. We specialize in high-quality custom optics and optical components and provide turnkey service according to customer preferences. All our products are made in Finland. We have decades of experience in optical fibers, optical. Bevenic Oy is a prominent Nordic contract manufacturer that specializes in innovative photonics solutions, offering customized services and certified quality in the production of optical fibers and components. But note that our Buyer's Guide is far more than a directory, providing a lot of technical background information, selection. Ampliconyx offers range of T-DCF based gain modules and amplifiers ideally suited for amplification of ultrashort laser pulses, both nanosecond and picosecond, offering its customers unmatched performance from all fiber solution. Arestech is a Finnish design company offering product development. Find now the microscope camera that suits best to your needs! Meet our experts and discover our photonic products and solutions! When it comes to protecting communities, choosing the right partner is invaluable. Learn how to enhance safety in work zones, school zones, and accident hotspots.
