

How much does a cable tray adapter cost

Article Overview

Cable tray adapters typically range from \$10 to \$50 per piece, depending on size, material, and manufacturer.

Cable tray adapters, also called conduit-to-tray adapters or tray clamps, are used to connect conduits to cable trays and ensure secure cable management . Prices vary based on material (malleable iron, steel, or galvanized finishes), size (e.g., 1/2" to 2" trade sizes), and brand. For example, Eaton B-Line series adapters and OZ-Gedney Tray-Bond clamps are commonly available in the \$10-\$50 range per unit .

Factors Affecting Price

- **Material:** Steel or malleable iron adapters are generally more expensive than plastic or zinc-plated options .
- **Size and Capacity:** Larger adapters for 1-1/2" to 2" conduits cost more than smaller 1/2" to 3/4" sizes .
- **Finish:** Mechanically galvanized or black zinc finishes may increase cost due to corrosion resistance .
- **Vendor and Quantity:** Prices can vary by supplier, and bulk orders may reduce per-unit cost. Some suppliers, like Graybar, require entering a ZIP code to view pricing and may have minimum order quantities .

Where to Buy

- **Platt Electric Supply:** Offers a wide range of conduit-to-tray adapters with detailed specifications
