

How much does a fiber optic pigtail cable cost

Article Overview

Fiber optic pigtail cables typically range from \$0.64 to \$55 per piece, depending on fiber type, length, and connector style.

Overview of Pricing

- Single-mode pigtails (9/125 μ m): Prices generally start around \$0.64 to \$1.29 per piece for 1.5-meter cables with SC, LC, or ST connectors, suitable for small-scale or bulk purchases . Higher-quality or pre-terminated 3-meter single-mode pigtails can cost \$19 to \$55 per piece, especially for 12-fiber configurations .
- Multimode pigtails (50/125 μ m or 62.5/125 μ m): These typically range from \$8 to \$32 per piece for 3-meter cables, depending on fiber grade (OM1, OM2, OM3, OM4) and connector type (LC, SC, ST), .
- Bulk packs: Buying in packs of 6 or 12 fibers can reduce the per-unit cost. For example, a 12-pack of 3-meter single-mode LC/UPC pigtails may cost around \$32, while a 6-pack of multimode LC/PC pigtails can be \$15-\$16 per pack .
- Specialty connectors and high-performance options: Pigtails with APC connectors, low insertion loss, or laser-optimized OM3/OM4 fibers can cost \$20-\$65 per piece, reflecting higher precision and performance standards .
- eBay and online marketplaces: Prices vary widely, with some single-mode 12-fiber 3-meter pigtails available for \$16-\$27, while larger kits or specialized assemblies can reach \$100-\$500 depending on quantity and packaging .
