

How much does a multi-core optical cable from Germany cost

Article Overview

Multi-core optical fiber cables in Germany typically range from €1 to €6 per foot, depending on fiber count, type, and construction.

Pricing Overview

The cost of multi-core fiber optic cables varies significantly based on fiber count, type, and cable construction. Standard retail prices for fiber optic cables range from \$1 to \$6 per foot, with higher strand counts and specialized constructions (like armored or plenum-rated cables) increasing the price . For example, a 288-strand optical fiber cable can reach the upper end of this range, while a simple 1-core cable may cost as little as \$0.13 per foot . Wholesale bulk purchases can reduce costs to \$0.09-\$1.52 per foot .

Factors Affecting Cost

- Fiber Type:
 - Single-mode fiber (SMF) is generally cheaper per foot than multimode fiber (MMF) but requires more expensive equipment .
 - Multimode fiber is preferred for short-distance, high-volume data transfer, such as in data centers .
- Fiber Count:
 - Multi-core fibers (MCF) typically contain 4 to 19 cores, though high-capacity applications may use more
