

How much does a residential electrical distribution box cost in Slovakia

Article Overview

A standard residential electrical distribution box in Slovakia typically costs between €120 and €400, with installation bringing the total to around €300–€700 depending on complexity and quality.

Cost Breakdown

1. **Distribution Box Price:** The base cost of a residential distribution box varies depending on size, number of modules, and material. Basic indoor units with 36–48 modules generally cost €120–€250, while higher-end or larger units with 72 modules or more can reach €300–€400. Premium brands or smart panels with monitoring features may cost more .

2. **Installation Costs:** Professional installation is a significant part of the total expense. For a standard single-family home, labor typically ranges from €180 to €350, depending on whether the installation is done before or after plastering, accessibility, and complexity of wiring . Additional costs may include wall chiseling, electrical measurements, or travel fees for the electrician, which can add €20–€100 to the total .

3. Factors Affecting Price:

- **Number of modules:** More modules allow for future expansion but increase cost.
- **Material quality:** Plastic enclosures are cheaper, while metal or weatherproof boxes...
