

How much does a standard secondary distribution box cost

Overview

Basic replacement: plastic 2-port box, minimal trench, no permit; total \$1,100–\$1,600; \$/box \$300–\$450; labor \$500–\$1,000. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. This guide outlines typical price ranges, how costs break down, and regional differences to help homeowners budget accurately. This guide provides a clear cost range in USD with practical budgeting tips and per-unit. Why does one box cost \$200 and another \$2,000?

It usually comes down to the “guts” and the “skin.” The material of the enclosure—whether it's basic ABS plastic, powder-coated steel, or high-grade 304 stainless steel—is the first big jump. Then, you have the internal components. You should budget for grading and landscaping if.
