

How much does it cost to customize a hybrid fiber optic cable

Overview

The cost of a custom fiber optic cable depends on multiple factors, including design complexity, material selection, production volume, environmental requirements, and additional services such as testing and certification. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Amphenol Custom Cable helps its clients connect technology by providing high quality products and services with a lower total cost of ownership. We have a strict quality control manufacturing process and are ISO 9001 certified. We also. Does your business depend on getting the right cable to customers at the best possible price?

Use advanced tools from CUI; offer your clients competitive quotes, and build your business with confidence. Engineer to order and produce complex products built to exhaustive customer satisfaction.
