

How much does it cost to dismantle an electrical distribution box in Greece

Article Overview

Dismantling an electrical distribution box in Greece typically costs between €150 and €600, depending on complexity, labor, and safety requirements.

Estimated Cost Breakdown

- **Labor Costs** Hiring a licensed electrician in Greece generally ranges from €40 to €100 per hour, with more experienced or master electricians charging higher rates . A straightforward dismantling of a standard residential distribution box may take 2-6 hours, depending on accessibility and wiring complexity, resulting in labor costs of approximately €80 to €600.
- **Additional Factors**
 - **Type and Size of the Box:** Larger or high-amperage panels require more time and care.
 - **Safety and Compliance:** Handling live circuits, disconnecting power safely, and adhering to local electrical codes may increase costs.
 - **Disposal Fees:** Proper disposal of metal enclosures, breakers, and wiring may add a small fee.
 - **Permits or Inspections:** Some municipalities may require permits for electrical work, which can add €50-€150 depending on local regulations.
- **Comparison to Replacement Costs** For context, replacing an electrical panel in Greece or similar regions typically costs €1,000 to €3,000 for a standard 100-125A panel, with higher amperage or upgrades reaching €3,000-€6,000 . Dismantling alone is significantly less expensive since it excludes new equipment installation....
