

How much does it cost to relocate a household electrical distribution box

Article Overview

Relocating a home electrical panel typically costs between \$1,500 and \$3,500, depending on panel type, distance, and labor requirements.

Typical Cost Range

Moving a main electrical panel or breaker box is a substantial project. The average cost ranges from \$1,500 to \$3,500, with most homeowners spending around \$2,000 for a standard relocation within the same property . Fuse boxes are generally less expensive to move than modern breaker panels due to simpler wiring and fewer safety requirements . Smaller electrical boxes, such as outlets or junction boxes, cost significantly less, but prices vary widely depending on complexity and local labor rates .

Factors Affecting Cost

- **Panel Type:** Breaker boxes require more labor and safety compliance than fuse boxes, increasing costs .
- **Distance and Location:** Moving the panel within the same room is cheaper than relocating it to another part of the house or outside, which may require additional wiring and trenching .
- **Labor Rates:** Electricians typically charge \$50–\$130 per hour, with higher rates in expensive regions, sometimes reaching \$175 per hour . Minimum service fees of \$100–\$200 may apply.
- **Permits and Inspections:** Local building codes often require permits and inspectio...
