

How to add cable brackets to cable trays and their prices

Article Overview

Cable tray support brackets typically range from \$10 to \$50 per unit, depending on material, load capacity, and brand.

Types and Features

Cable tray brackets are used to secure cable trays to walls or overhead structures, ensuring stability and proper cable management in industrial, commercial, and construction settings . Common types include:

- Wall-mounted brackets: Provide strong support for horizontal cable runs and save space .
- Pedestal or adjustable brackets: Allow height adjustments and are suitable for varying tray sizes .
- Heavy-duty, medium-duty, and light-duty brackets: Selected based on the weight of cables and environmental conditions . Materials often include galvanized steel, stainless steel, or powder-coated metals, offering corrosion resistance and long-term durability . Some brackets comply with EN 61537 standards for cable management systems .

Price Range

- Light-duty brackets: Approximately \$10-\$20 per unit, suitable for small cable trays or low-load applications
