

How to straighten yellow hair with a hair tie

Article Overview

You can straighten yellow hair without heat by tying damp hair in sections with hair ties overnight, then removing them in the morning for smoother, straighter locks.

Step-by-Step Guide

- **Wash and Condition Hair** Start with clean hair. Use a moisturizing shampoo and conditioner to hydrate your hair, especially if it is dry or chemically treated (like yellow or bleached hair) to prevent breakage and frizz (Shun Salon) .
- **Towel-Dry Gently** Pat your hair dry with a microfiber towel or an old t-shirt. Avoid rubbing, which can cause frizz and damage (Shun Salon) .
- **Section Your Hair** Divide your hair into 2-4 sections depending on thickness. Thin hair may only need two sections, while thick hair may require four (Shun Salon) .
- **Tie Hair with Hair Ties**
 - Take a section and tie it into a low ponytail at ear or neck level.
 - Add additional hair ties every 2-3 inches down the length of the ponytail, keeping the hair taut but not overly tight to avoid dents (wikiHow) .
 - Use fabric-coated elastic hair ties instead of rubber bands to prevent breakage (Shun Salon) .
- **Sleep with Hair Ties** Leave the hair ties in overnight. The tension will help straighten the hair gradually without heat (HairSpeaks) .
- **Remove Hair Ties in the Morning** Carefully remove the hair ties and gently comb through your hair with a wide-tooth comb. Your hair should appear straighter and smoother (Shun Salon)
