

How to wire the conductive strip in the distribution box

Overview

Match wire colors to terminals: Brown (live), Blue (neutral), Green/Yellow (earth). Strip wires to the correct length—exposed copper should fit snugly without overhang. Tighten terminals firmly but avoid over-torquing, which damages contacts. Double-check the polarity-reverse. Material preparation: Prepare the required circuit breakers, wires, wiring ties and other materials, and ensure that they meet the design drawings and installation requirements. Whether you're an electrician or a DIY enthusiast, this guide will help you understand the basics of home electrical distribution. Covers wiring, placement, standards, and expert tips for a compliant setup. • Complete 3-Phase Dual-Mode ATS Wiring Mast. Tools and. A distribution board or distribution box is where the main power supply is distributed to multiple loads.
