

Indonesian Telecom Grade Router SFP

Overview

The Direktorat Jenderal Sumber Daya dan Perangkat Pos dan Informatika (SDPPI) of Indonesia has updated requirements for products with Small Form Factor Pluggable (SFP) Ports, which includes devices such as routers, ethernet switches, gateways, and firewalls. This modification encompasses a range of devices, including routers, Ethernet. SDPPI certification, often referred to as Postel certification, is an official approval issued by the Indonesian government for telecommunication devices. A plug-and-play ** design makes for easy deployment, no technician needed. High-quality metal casing ensures strength and reliability for a long time, maintaining a stable connection in a wide range. The Directorate General of Resources and Equipment of Post and Information Technology (SDPPI) has the task of carrying out the formulation and implementation of policies in the management of radio frequency spectrum and satellite orbit as well as standardization of post and information technology. Telecommunication product certification is a mandatory requirement for manufacturers, importers, and distributors before marketing their devices in Indonesia. SDPPI Type approval (Certificate number &.
