

Industrial Optical Cable Quotation

Article Overview

Industrial optical cable prices typically range from \$0.20/m for basic indoor cables to \$6-\$15/m for high-performance armored or waterproof industrial cables, depending on specifications and customization.

Key Factors Affecting Pricing

Industrial optical cable costs vary significantly due to multiple design and environmental factors:

- **Fiber Type and Count:** Single-mode or multimode fibers, and the number of cores, directly influence cost. Higher fiber counts increase price.
- **Cable Construction:** Armored, loose-tube, breakout, or hybrid designs affect durability and manufacturing complexity.
- **Jacket Material:** LSZH, PVC, PUR, or specialized chemical-resistant jackets impact both performance and cost.
- **Environmental Ratings:** Cables designed for extreme temperatures, UV exposure, vibration, or chemical resistance are more expensive.
- **Connector and Assembly Requirements:** Pre-terminated assemblies, waterproof seals, strain reliefs, or custom overmolds add to the price.
- **Compliance and Certifications:** UL, DNV, Bureau Veritas, or other industrial standards can increase cost due to testing and quality assurance requirements.

Typical Price Ranges

- **Indoor PVC Cables:** \$0.20-\$1/m, suitable for standard office or factory environmen...
