

Industrial Switch Brand Vicchi

Article Overview

Vicchi is a manufacturer of industrial switches and networking products designed for rugged, mission-critical industrial environments.

Overview

Vicchi specializes in industrial-grade switches and communication solutions suitable for IIoT, Industry 4.0, and harsh industrial conditions. Their product range typically includes Layer 2 and Layer 3 managed and unmanaged Ethernet switches, PoE switches, DIN-rail switches, and industrial 10G switches. These switches are engineered for high reliability, wide operating temperature ranges (-40°C to +75°C), surge protection, and redundancy protocols like RSTP, making them suitable for applications in rail transit, power grids, solar PV plants, and smart factory automation.

Key Features

- **Rugged Design:** Vicchi switches are built to withstand extreme temperatures, vibration, and dust, ensuring stable operation in industrial environments .
- **Power-over-Ethernet (PoE):** Many models support PoE up to 90W per port, compliant with IEEE 802.3bt, enabling single-cable data and power delivery for devices like IP cameras and IoT sensors .
- **Connectivity Options:** Industrial M12 connectors, TSN (Time-Sensitive Networking), and PTP (Precision Time Protocol) support for real-time automation and synchronized operations .
- **Custom Solutions:** Vicchi offers OEM/ODM services, allowing tailored switch configurations for specific industrial applications .
