

Is it easy to get a job at a fiber optic cable factory

Overview

The good news is that fiber optic technician is genuinely one of the most accessible skilled trade careers available right now. Employers know there aren't enough trained techs to meet demand — which means they're more willing to hire and train people than in most other fields. Thinking about getting a job in Fiber Optics as a Field Technician - how hard is it?

Recently was talking to a Field Technician from Frontier down here in Florida. He went to a trade school up in Tampa, learning alliance corporation, for a month ish. Started at \$28/hr. Depends on what you want to do. Both those jobs are very entry level in the field and will give you hands on. Lennie Lightwave talks about careers in fiber optics. This page is for those considering a career in fiber optics - especially students at the High School Level - and want to know more about what fiber optic workers do on the job and how to get into the field.
