

Israeli Fiber Optic Cable Reel

Article Overview

Israeli fiber optic cable reels are available in various sizes and configurations, designed for efficient storage, deployment, and protection of fiber optic cables.

Overview of Fiber Optic Cable Reels in Israel

Fiber optic cable reels in Israel are engineered to facilitate the handling, storage, and deployment of fiber optic cables. Companies like B.M.T.S Ltd offer the FOTTADS system, which includes cable reels, stands, and hand reels in multiple dimensions tailored to customer requirements. These reels feature retractable axles for ease of use, rust-free construction, and compartments for connectors, ensuring durability and convenience during network installation. The reels are made from AL 6061 T6 aluminum, providing a lightweight yet strong structure suitable for stacking and long-term use.

Key Features

- Customizable sizes to accommodate different cable lengths and diameters
- Rust-free, durable construction for long-term reliability
- Special compartments for connectors and accessories
- Retractable axles for easy unwinding and rewinding of cables
- Compatibility with various fiber optic components and deployment systems
