

Malaysia Cable Tray Specifications and Prices

Article Overview

Cable trays in Malaysia are available in various materials, sizes, and designs, with prices depending on type, material, and length, ranging from standard mild steel trays to heavy-duty stainless steel and aluminum options.

Types and Materials

- Material Options
- Mild Steel: Common, cost-effective, often epoxy-coated for corrosion resistance .
- Galvanized Steel: Hot-dipped for durability and rust protection .
- Aluminum: Lightweight, corrosion-resistant, suitable for industrial and commercial use .
- Stainless Steel: Marine-grade or heavy-duty applications, highly durable .

• Designs

- Ladder-Type: Open design for ventilation and easy cable access .
- Perforated: Allows airflow and drainage, suitable for data and power cables .
- Solid-Bottom: Provides full protection for sensitive cables .
- Boltless or Adjustable Trays: For flexible installation and multi-layer setups .

Sizes and Specifications

- Widths typically range from 50mm to 300mm, with lengths around 2.44 meters (8 feet) .
- Wire diameters supported vary from 3.5mm to 6mm, depending on tray type
