

Mexico 16-core fiber optic distribution box

Article Overview

A 16-core fiber optic distribution box is a compact, durable solution for managing, protecting, and distributing up to 16 optical fibers in FTTH and FTTB networks.

Overview

A 16-core fiber optic distribution box is designed to organize, protect, and manage fiber optic cables in both indoor and outdoor environments. It supports up to 16 fiber cores and is compatible with SC/LC adapters, fiber patch cords, jumpers, and PLC splitters, making it ideal for FTTH, FTTB, and broadband network applications .

Key Features

- **Durable Construction:** Made from high-impact materials like PC+ABS, ensuring strength, lightweight properties, and long-term durability .
- **Weather Resistance:** IP65-rated, waterproof, dustproof, moisture-proof, and UV-resistant, suitable for outdoor pole or wall mounting .
- **Flexible Installation:** Can be wall-mounted or pole-mounted, with included installation kits for easy setup .
- **Cable Management:** Provides separate paths for feeder cables, pigtails, and patch cords, with integrated splice cassettes and fiber management rods to maintain proper fiber bend radius .
- **Splicing and Splitting:** Supports fusion splicing, mechanical splicing, and fiber splitting, with optional 1×2, 1×4, 1×8, or 1×16 PLC splitters
