

Monaco electrical distribution box size representation

Article Overview

Electrical distribution boxes in Monaco typically range from compact wall-mounted units of 200 × 200 × 120 mm to large floor-standing panels up to 2200 × 1800 × 600 mm, depending on capacity and application.

Standard Residential and Commercial Sizes

- Wall-mounted enclosures: Commonly range from 200 × 200 × 120 mm up to 800 × 600 × 300 mm, suitable for small residential circuits, consumer units, or junction boxes .
- Floor-standing cabinets: Typically range from 1600–2200 mm in height, 600–1800 mm in width, and 300–600 mm in depth, designed for larger commercial or industrial distribution systems .
- CCL boxes: Minimum recommended size is 500 × 120 × 350 mm (L × D × H), adjustable based on user distribution and site conditions .

Modular and Gang Configurations

- Single-gang boxes: Designed for one device or circuit.
- Double-gang and multi-gang boxes: Accommodate two or more devices, with modular designs allowing flexible circuit arrangements .
- Metal enclosures: Often 1 mm thick steel with powder coating for corrosion protection, doors reversible for left or right opening
