

Moroccan supplier optical cable terminal box 2 cores

Article Overview

A 2-core Moroccan optical cable terminal box is a compact, durable enclosure designed for fiber optic termination, splicing, and distribution, suitable for FTTH and FTTX networks.

Key Features

- **Material and Durability:** Typically made from high-quality ABS or PC ABS plastic, providing impact resistance, flame retardancy, and long-lasting performance. Many models are waterproof and dustproof, making them suitable for outdoor installations in harsh environments .
- **Port Configuration:** Most 2-core boxes feature dual SC/UPC or SC/APC ports, allowing easy connection of subscriber patch cables and integration with optical network terminals (ONTs), .
- **Cable Management:** Designed with inlet and outlet holes for pigtailed or sheathed optical cables, maintaining proper bend radius and preventing fiber damage. Some models include slack management trays for neat organization .
- **Splicing and Termination:** Supports mechanical and fusion splicing, as well as secure termination of fiber optic cables. The integrated optical interface ensures seamless linking of patch cords to the network .
- **Installation:** Compact and user-friendly, suitable for wall-mount, surface-mount, or desktop installation. DIY-friendly designs allow easy setup for residential or small business networks
