

Myanmar Basic Distribution Box

Article Overview

Basic distribution boxes in Myanmar are supplied by leading electrical companies such as Khin Maung Tun & Brothers and Thida Chan Myay Electrical Trading, offering a range of low-voltage and medium-voltage solutions.

Key Suppliers

Khin Maung Tun & Brothers (KMTB) is a prominent electrical company in Myanmar, established in 2006. They provide a comprehensive range of low, medium, and high-voltage electrical products, including distribution boxes. KMTB is known for next-day delivery across most of Myanmar and offers short lead times for large projects, making them a reliable choice for commercial, residential, and industrial electrical installations. Thida Chan Myay Electrical Trading Co., Ltd. specializes in engineering design, material supply, construction, testing, commissioning, and operation/maintenance services for substations and distribution systems. They supply all types of main switchboards (MSB), extended MSBs (EMSB), and distribution boxes (DB) suitable for commercial, residential, and industrial projects. Their offerings cover low-voltage cable and busduct distribution systems, supporting projects up to 230kV.

Distribution and Market Reach

For broader distribution services, Myanmar Distribution Group (MDG) operates a nationwide network connecting suppliers to over 40,000 outlets monthly. While MDG primarily focuses on FMCG products, their logistics and distribution expertise highlight the efficiency of supply chains in Myanmar, which can be leveraged for electrical equipment distribution
