

Nicaragua CIF price micro-module data center IP54

Article Overview

The CIF price for a micro modular data center with IP54 rating in Nicaragua typically ranges from \$50,000 to \$120,000 per unit, depending on configuration, capacity, and vendor, with import duties and taxes applied on the CIF value.

Micro Modular Data Center Overview

Micro modular data centers are compact, pre-engineered IT infrastructure units designed for rapid deployment, edge computing, and remote operations. They integrate power, cooling, server racks, and security into a single enclosure, often factory-preinstalled and ready for operation upon arrival (). For outdoor or harsh environments, units with IP54 or higher protection are available, ensuring resistance to dust and water splashes (). Key specifications for IP54 micro-module units:

- Capacity: Typically 20–70 kW for small outdoor units ()
- Cabinet count: 3–8 cabinets per container
- Footprint: 0.72–1.5 m² per cabinet
- Deployment: Factory prefabricated, ready-to-use, minimal on-site construction
- Environmental rating: IP54–IP55 for outdoor protection, suitable for tropical climates
- Redundancy: N, N+1, or 2N configurations for power and cooling
- PUE (Power Usage Effectiveness): 1.3–1.4 for energy efficiency
