

Outdoor electrical boxes distribution boxes for home use

Article Overview

Electrical boxes for home and outdoor use come in a variety of materials and IP/NEMA-rated designs to ensure safety, durability, and weather resistance.

Types and Materials

Plastic/ABS Boxes: Lightweight, impact-resistant, and corrosion-free, ideal for general residential and garden use. ABS boxes are commonly used for outdoor junctions, low-voltage wiring, and smart home installations . **Polycarbonate Boxes:** UV-stabilized and heat-resistant, suitable for high-heat or industrial-grade outdoor environments. They provide extra durability against cracking and yellowing under prolonged sun exposure . **Metal Boxes (Aluminum or Steel):** Offer superior strength and RFI/EMI shielding, often required for sensitive electronics or metal-sheathed cables. They are corrosion-resistant when properly coated and suitable for both indoor and outdoor applications .

Protection Ratings

IP Ratings (Ingress Protection):

- IP65: Protects against dust and low-pressure water jets, suitable for general outdoor use like garden lighting .
- IP66: Resistant to powerful water sprays, ideal for exposed outdoor areas or heavy rain
