

Price List for Vertical Shaft Cable Trays

Article Overview

Vertical shaft cable trays currently range from approximately \$0.80 to \$76 per unit, depending on type, material, and purchase volume.

Price Overview

- B2C Market (Retail/Consumer): Vertical cable trays designed for home or small office use are priced between \$15 and \$34 per unit, with some wholesale options as low as \$0.92. These products are typically smaller, under-desk or light-duty trays, and are sold through platforms like Amazon .
- B2B Market (Industrial/Commercial): Bulk purchases for construction, data centers, or manufacturing applications are significantly lower per unit, ranging from \$0.80 to over \$76, depending on material, size, and customization. High-end trays made from stainless steel (304/316) or hot-dip galvanized steel with fireproof or corrosion-resistant coatings are at the higher end of this range .

Factors Affecting Price

- Material: Galvanized steel is common and cost-effective, while stainless steel or aluminum alloys increase durability and corrosion resistance, raising the price .
- Tray Type: Slotted trays allow better ventilation and heat dissipation, solid-bottom trays provide extra protection, and expandable modular trays offer flexibility for future expansions .
- Volume: Bulk orders reduce per-unit cost significantly, especially in industrial applications .
- Customization: Special coatings, fireproofing, or specific dimensions can increase costs
